## OBJECTIVE

Highly skilled Laravel Developer with 7+ years of experience in designing, developing, and maintaining robust web applications. Committed to delivering high-quality code and exceptional user experiences. Seeking challenging opportunities to leverage my Laravel expertise and contribute to innovative projects.

## EXPERIENCE

### UPWORK, Remote — *Top Rated Laravel Developer*

MONTH 2020 - PRESENT

- Designed and developed custom Laravel applications for multiple clients and 50+ projects, implementing clean and efficient code structures to ensure scalability and maintainability.
- Collaborated with cross-functional teams to gather project requirements and translate them into technical specifications and user stories.
- Created database schemas and optimized queries for efficient data retrieval and storage using MySQL.
- Implemented responsive frontend designs using HTML, CSS, and JavaScript/jQuery to deliver seamless user experiences.
- Integrated RESTful APIs and third-party services, such as payment gateways and social media platforms, to enhance application functionality.
- Conducted thorough testing and debugging to ensure application stability and performance.
- Implemented version control using Git, collaborating with team members to efficiently manage codebase changes.
- Actively participated in agile development processes, including sprint planning, stand-ups, and retrospectives, to ensure timely project deliveries.
- Provided ongoing support and maintenance for existing Laravel applications, addressing bug fixes and implementing enhancements.

## SKILLS

Laravel Framework

PHP

MySQL/Database Management

HTML/CSS

JavaScript/jQuery

Reactjs/Vuejs

RESTful APIs

MVC Architecture

Git Version Control

Agile Development

Testing and Debugging

Problem Solving

Team Collaboration

## PROJECTS

**Doctomon.com** - Doctor Appointment Booking Web App - Laravel & Vuejs

**HaruInvest.com** - Smart, simple, secure crypto investing - Reactjs & Laravel

**Findomon.com** - Smart home appliances e-commerce - PHP/Laravel

**Animeinterface.xyz** - Cartoon/gaming-themed social media community - Laravel & Vuejs

## Happy Cog, United States — Senior PHP Web Application Developer (Laravel/MVC)

MONTH 2018 - MONTH 2020

- Led a team of developers in the design and development of complex Laravel applications, overseeing the entire project lifecycle from concept to deployment.
- Collaborated closely with stakeholders, including project managers and clients, to gather requirements, define project scopes, and ensure timely and successful project deliveries.
- Implemented advanced Laravel features such as authentication, authorization, and caching to enhance application security and performance.
- Mentored junior developers, providing guidance on best practices, code reviews, and troubleshooting techniques.
- Integrated third-party APIs, such as payment gateways and CRM systems, to streamline business processes and enhance application functionality.
- Implemented automated testing using PHPUnit to ensure code quality and minimize bugs and issues.
- Conducted performance optimization, analyzing database queries and identifying bottlenecks to improve application speed and scalability.

## LANGUAGES

English - Fluent

## NeoDoctor, Lagos — *Junior Laravel Developer*

MARCH 2016 - JULY 2018

- Assisted senior developers in designing and developing Laravel applications, gaining hands-on experience with the framework.
- Collaborated on team projects, following established coding standards and best practices.
- Conducted thorough testing and assisted in debugging to identify and resolve application issues.
- Maintained and updated documentation, ensuring accurate and up-to-date technical references.

## EDUCATION

### Evangel University, Enugu — *BSC Computer Science*

FEB 2015 - MARCH 2018

### WEBICON Institute, Lagos — *Computer Science Programming*

MAY 2018 - MONTH 2020.
